

BEDFORD COLLEGE

We have been using Newnorth for the past 14 years to print the majority of our larger print run jobs. Our two biggest print jobs in the course of the academic year are our full-time prospectus (10,000 copies approx.) and our part-time guides (12,000 copies approx.) which Newnorth currently print for us. We find them to be competitive on price and reliable in both delivery times and print quality.

We have a dedicated Account Manager as well as a Customer Service representative so there is always someone you can contact to check on the progress of a job, or for advice when preparing artwork or considering print specification.

We have recently started producing an Annual Report – for which we demand the highest print quality – and Newnorth have printed this for the past two years. In 2008 the College won a Marketing Network Award for the Annual Report, which demonstrates the quality of the final job.

In conclusion we would have no reservations in recommending Newnorth as a print supplier.

Regards,

Bryan Davis,
Designer,
Bedford College
